

Acapella KEY: B

Sing with sun at your forehead,
Arms raised moving as the song moves you

every morning

fully activate

and appreciate

all the glory

you write the story

you sing the song

move us along

be courageous

ask for all you need

open to receive

soul's desire

you can inspire

mystical fire

lifting us higher

now and all ways

everything's a gift

be aware, uplift

be forgiving

gratefully living

when love's understood

it's all for the good

remain humble

listen, take action

joy is the mission

love is the play

stay above the fray

your call and duty

bring beauty to life

bring beauty to life

bring beauty to life
